

GLOBAL STRATEGIC ALLIANCES PROGRAM

Align with an Industry Leader

Verisk 3E, formerly 3E Company, delivers intelligent compliance solutions that empower companies around the globe to reduce risk, drive continuous improvement and create new growth opportunities.

Verisk 3E is committed to customer driven innovation. To deliver comprehensive solutions that respond to customers' unique requirements and enable them to achieve their compliance objectives, we form alliances with select providers of innovative, industry leading systems across the globe.

As the premier provider of chemical, material and product level ingredient content, Verisk 3E has led the industry for 30 years in researching, obtaining, aggregating, validating, enriching and updating compliance related data and making it available to our customers.

The breadth of countries covered and depth of regulatory and legislative information provided offer unprecedented support for identifying, monitoring and complying with ever changing EHS, industry and customer requirements. Our extensive and expertly curated multilingual content includes:

- Product level SDS content including classification, transportation, environmental, ecological and disposal considerations with more than 7 million SDSs
- Substance level regulatory data and full text source documents for chemicals, food, food contact, consumer packaged goods, home care, personal care, cosmetics and pharmaceuticals spanning more than 100 countries
- Physical, chemical, toxicological and ecotoxicological (PCTEC) chemical property and hazard data
- Supply chain documentation ranging from material disclosures and substance declarations to compliance certificates and more
- Dangerous goods content including regulations, codes, agreements and lists regarding the compliant transportation of hazardous materials

WHY ALIGN WITH VERISK 3E?

Verisk 3E makes it easy and profitable to integrate our content and solutions with your systems to create a winning combination for customers. Working together we can expand into new markets, target new customers, create efficiencies for mutual customers, develop competitive advantages and create innovative solutions.

Verisk 3E offers an established and straightforward alliance process, dedicated resources and a commitment to delivering concrete business benefits to our customers and partners. To see our partners, visit our Global Strategic Alliances page at www.Verisk3E.com.

A STRATEGIC OPPORTUNITY

We recognize the important role our partners play in our ultimate success. Whether a partner refers or resells our standalone products and services or integrates our content and applications into their systems, our flexible delivery methods ensure maximum business value for the end user customer. Alliances include the following categories:

EHS Platforms

Verisk 3E employs a platform agnostic approach. We integrate our regulatory content and applications with industry leading systems to extend and enhance their functionality, providing greater value to customers through integrated software and data solutions that help them achieve compliance.

Research and Development

Verisk 3E is the premier provider of integrated data for process and discrete manufacturers. Product Lifecycle Management, Laboratory Inventory Management and Formulation Management platforms trust Verisk 3E content for product compliance and hazard communication. Customers are able to produce compliant products and effectively communicate appropriate hazards throughout the product lifecycle.

Consulting and Implementation

Consultants and implementers alike trust and recommend Verisk 3E data as part of larger EHS or product stewardship product implementations.

Associations

Verisk 3E is actively involved in several industry associations, including those who promote and offer Verisk 3E products to members.

We continue to evolve to better serve our customers.
